

Encore Productions Residency Round up November 2022

In the meantime we have been participating in film making workshops with Emmet Kelly of 'Burning House Productions'. With Emmet we have been exploring all aspects of film making from light and sound to camera operation, composing shots, screen acting and direction. It is hoped that these new skills will broaden the repertoire of Encore's work and may feed in to their next production on stage or screen.

Until then –lights, camera, ACTION!
